QAPP for Pre-CERCLIS Screening at Bridgeton Dust Site- ATSDR Comments PC.pdf
ATT00001.htm

Just passing along for your awareness.

I believe we already discussed all these.

Tom

Hi Tom,

Paul's comments are attached. Given the nature of the Pre-CERCLIS screen and the desire for prompt review and action, we've kept comments to a minimum. Paul, Spencer, and I will be on the call.

Thanks,

Erin

Hi Paul and Anthony,

See attached QAPP for Pre-CERCLIS screening at Bridgeton. Cory is out on leave this week. Can you and/or Anthony take a look at the attached and participate in a call tomorrow around 10:30 or 11:00 CST? Paul I will call in a few to follow-up on this.

Thanks,

Erin

Cory and Spencer,

Attached is the QAPP that EPA intends to perform next week at residences in Spanish Village. Please take a look at this QAPP and let's discuss any thoughts or input you might have. I am trying to coordinate a call on Wednesday with MDNR, MDHSS, and St. Louis FUSRAP (USACE) to discuss everyone's comments.

For your awareness, this QAPP is currently being reviewed by EPA QA personnel so minor revisions may occur between now and Wednesday pending there review.

Are either of you available to participate in this call on Wednesday?
